

Tanzania Orphanage and Outreach Ministry

Grace Lutheran Church in Jackson Center, Ohio in partnership with Tumaini Bariadi Parish in Tanzania, and partnering Lutheran Churches in the USA, share the love of Christ through Home of Peace Orphanage (HOP) and the Village Evangelism Project (VEP). One Plus God assists us in facilitating and administrating these ministries.

- Orphanage (Home of Peace): Children receive quality Christian education at Lutheran schools, and daily physical and Christ-centered spiritual care, up to two years after high school. This is to ensure that they can grow in their Christian faith and become great Christian leaders and providers to their country and families. These are opportunities that they would not normally have.
- Outreach: Full time employment of Evangelists and a Social worker enabling rapid outreach growth into rural villages. The goal is to lead people to Christ in order to break cycles of following witchcraft practices, practicing of FGM (Female Genital Mutilation), broken marriages, and neglected children.
- Partner with us: Lives are being transformed. The children and their care team need to be taken care of, and as people in the villages are flooding to the Lord, church buildings are becoming too small, pews and Sunday school materials are running out. Training is needed in Christian care for one another, including marriage and family practices, malnutrition, family planning, correct medical care, and small business administration.
